ONE DAY SEMINAR ON “RED HAT LINUX”

in association with

RHA

A brief report of a Red Hat Inauguration and One Day Seminar on “Red Hat Linux”

organized by Department of Computer Science and Engineering

On 28th Sep, 2018 (Friday)

A **One Day Seminar** on “**Red Hat Linux**” was initiated by centre for value added courses(CVAC) and organized by **Department of Computer Science and Engineering on 28th Sep, 2018**. This seminar was organized for II, III, IV students of CSE, ECE and MCA. There are 180 students actively participated in the seminar. The main objective of this seminar was to create awareness in the Red Hat ecosystems. The topics covered in the seminar includes Closed Source vs Open source. The outcome of the seminar was in the form of implementation of a Certified Red Hat Linux Courses .The seminar was conducted by external Red Hat training partners from Advantage PRO, Chennai.

The inaugural ceremony of Red Hat Day and handing over the Red Hat Academy MoU of the seminar witnessed the presence of **Dr. P.Natarajan, Principal PEC**, along with the faculty and staff members of Department of CSE, ECE and MCA, PEC. **Mrs. N. Kalpana, Coordinator, centre for value added course from CSE department** formally welcomed the dignitaries and experts from the Advantage PRO Chennai in his opening address. **Dr.P.Natarajan, Principal PEC**, in his motivational address emphasized upon the importance of learning open source technologies and Red Hat Linux for the students.

Mr. SIDHARTH SANKAR PATTANAYAK, Manager Red Hat partner in Advantage PRO highlighted the technical details of the seminar in his address.

Mr. H. Saad Furqhan III year CSE proposed the vote of thanks to all dignitaries present, guests and participants.

Key Note Speaker:

Mr. KEERTHISHWARAN R A, Red Hat Certified Technical Trainer in Advantage PRO highlighted the technical details of the open source in this seminar. He has 3 years of experience in administering networks & training experience. Passionate about delivering solutions and training based on open source technologies, mainly Red Hat Enterprise Linux.
