INDUSTRIAL VISIT REPORT
FINAL YEAR – “A” SECTION

1. Kundah Power House-I:

Kundah power house is located in ooty and is one of largest power generation unit in Tamilnadu. There are totally six power houses present in Kundah and we visited Kundah power house-I on 23.07.2018. This particular power house consists of 3 units each installed with a capacity of 60MW. The water resource for the operation of this power house is taken from Avalanche and Emerald dams.

We were welcomed by the Assistant Engineer/Technical Service. He explained about the functioning of the power house. The students visited the various divisions of the power house like reservoir, generator, turbine etc., The students gained the complete knowledge of the working of the power house and also cleared their doubts regarding how a hydro power plant is operated.

2. Doddabetta Tea Factory:

We also visited the Doddabetta tea factory and tea museum. The students were given first hand information of the entire tea history and processing. The students visited the factory and learnt about the tea and different stages of tea processing like withering, crushing, cutting/tearing/curling, shaping, fermentation, drying, cleaning and grading. They also provided a certificate for the students whom visited their plant.

Various Processes carried out in Doddabetta Tea Factory
